

## **Changes in Your Pharmacy Coverage**

Starting February 1, 2011, Medicaid will no longer pay for some over-the-counter drugs. Over-the-counter drugs are often bought at a store without a prescription.

These types of drugs will no longer be paid for:

- Cough and cold medicine, like Sudafed<sup>®</sup>
- Eye and ear drops
- Nose sprays
- Antacids, like Maalox<sup>®</sup>

Ask your doctor or pharmacist if you have questions about the medicine you take.
